State Machine Diagram.

**How to use the
template**

- 1. Double click to insert text in the given shape.
- 2. Add/change other shapes by simply dragging and dropping from the "Shapes stencil" located at the left.
- 3. Pick and choose the format (color + fonts) of a shape using the "Format Painter" located in the Home Ribbon. We have also created a palette for you containing the colors and fonts used in this diagram. The palette is pasted above this description.
- 4. Customize the colors as per your requirements, using the "More Color" option from the paint bucket.
- 5. The text body will have to be resized depending on the content of your text.
- 6. These templates are highly efficient and visually
